As a 47-year resident and City Councilmember, I stand for strong neighborhood character, excellent services and programs, and fiscal responsibility. I've conferred, listened to, and worked with people of differing viewpoints. I supported: youth and senior services; cooperative city/school relations; traffic calming and safety efforts; public safety measures; better financial controls; emergency preparedness initiatives; and stronger oversight of city hall.

With your vote, I'll continue working for: Open and responsive government; sound financial practices; refurbished parks and tree-lined streets; strong LAUSD relations; enhanced municipal services including e-government services; improved open space utilization; a citizen friendly government. I thank you for your support and ask for your vote.
